Senator Edward M Kennedy
2400 JFK Federal Bldg
Gov't Center
Boston, Mass 02203

Dear Senator Kennedy,

Per our conversation with one of your aide's, the following request is submitted.

A Forensic test be taken by the Federal authorities on a wallet, its contents, driver's license, money, etc.,.

Also, a Forensic test be taken on bones that were buriedin Notre Dame Cemetary, supposedly to be one of the missing persons. Further request permission be granted to have the bones exhumed.

On May 29, 1976, the following people departed Cherry Valley, Mass and proceeded to Plymouth, Mass with a 17 foot motor boat to enjhoy a day of fishing, however they never reurned:
Janan Lisa Coonan - Daniel Kwiatkowski
Elaine Susan Kwiatkowki - Daniel Richard Poirier

We wrote to you sometime ago and you sent us a reply with the Coast Guard report. However, I had previosly went to three Coast Guard Stations, and received a full report from the Coast Guard Headquarters but was not satisfied with the findings. They stated that if they had drowned that the bodies would be up within five weeks, and now it is almost one year and the only thing that was found was bones, and they could be maybe an animal and a wallet that was found after five months but was in very good condition to be in the sea for five months.

We have contacted several psychic's, and they all say that the children are alive.

Dr Alex Tanous, a psychic who is associated with the United Nations, and the Bermuda Triangle and a water specialist studied the entire Coast Guard report and has stated that the did not drown.

We are now working with a noted famous psychic, Dorothy Allison from Nutley, New Jersey, who has recommended that we contact you to assist us in obtaining assistance from the FBI to have the forensic tests taken.

Dorothy Allison will be coming to our home May 21, 1977 and then will proceed to Plymouth to find out what took place.

She works with the following personnel from the FBI:
Tom Cottone - New York
Bob McDowell-New York City, San Juan, Puerto, Rico
Fitz Orron Clarke Jr, Trenton, New Jersy Reginal Director
Toney Genakos, Newark New Jersey, Washington D.C.
Duane Eskridge - FBI agent who worked with Dorothy Allison on the Patty Hearst case.

Request that the tests be accomplished on the wallet and its contents by May 20, 1977 so that they can be given to Mrs Allison for her review.

Further request an appointment be sheduled with Senator Kennedy with the parents of the missing people.

Thanking you for your past assistance and hoping to hear from you soon.

Sincerely,

Paul A Coonan
